Good Morning, I am not certain if John sent you any updates on this, so I am sending one. If this is redundant, then please ignore.

We had a meeting with the team, and the decision is that a letter will be sent to the control requester. You and Mark have been assigned as the leads. The idea is to send a letter describing how ODEQ and EPA have been on site, that EPA was on site sampling when the request was sent, that EPA has the data and is including for his review, etc. There was also talk about coordinating with the local health department for some lead education and perhaps a meeting.

Katrina,
 Please work with Bart and Removal to pull together a response to this control. It is the Wilcox site.

High level of lead on property

Is there anyone else you would like to have this Control forwarded to?

HQ's Controlled Management System (CMS) has forwarded this to Regional 6 for information purposes only. No response is required. Please make sure that the appropriate personnel within your division receive this information.
